Academic and Nonacademic Resources

There are 4 fully equipped classrooms in Hospital Management Department (HMD). Laboratory of HMD is equipped with 30 PCs. At the University level, a mixture of learning resources are available to staff and students through a fully equipped and sophisticated library, learning resources are updated and the electronic library is also a part of the main University library. In response to the health management sector needs, a business incubator scheme has been formed. Hence staff, students and health industry can share a dedicated physical area for meeting & developing ideas.

Field Training & Graduation Project

A field Training course will enable students to co-exist with the hospital environment so as to make them acquire real-life and practical experience through having them train in one of the health business organizations. On the other hand, The Graduation Project course is an individual work to be done with the guidance of a supervisor assigned by the Department of Hospital Management. It aims to provide the students with the required knowledge to make research and to give the students the chance to conduct a small scale study. The course content is aimed to develop skills in solving practical problems and providing students opportunities to hone their abilities.

Our Mission

Consistent with the mission of the Faculty of Business and the Philadelphia University, the Department of Hospital Management is committed to quality in its educational programs, and service to the community.

Education is a vital objective of the department. The department will deliver the quality hospital management education in Jordan and region. Undergraduate students will be well prepared for professional careers. Students will be encouraged to complete all degree requirements in a timely fashion through a coordinated program of faculty advising and staff counseling.

Our Objectives

1. Offer a program that supports and matches the needs of the health care industry at the national and regional levels.
2. To build positive relations with the health business community
3. Promote high quality management education and latest teaching and training strategies.
4. Develop health managers and leaders with core competencies in order to meet the needs of the national and regional labor markets.

Job options

If you're considering studying a Bachelor's in HM, you probably already know that this can lead to a very wide range of careers and jobs such as, Management of health care institutions, World health organizations, Pharmaceutical Factories, Health Marketing, Pharmacological studies and research and Health Care Consultancy.
