

Philadelphia University
Faculty of Science
Department of Biotechnology and
Genetic Engineering
First Science Day 28th November, 2005

Scientific Program

<i>Time</i>	<i>Speaker</i>	<i>Title</i>
9:00-9:30	Dr.Raida Khalil - Philadelphia University	Welcoming and Introductory Remarks
9:30-10:00	Dr.Christopher Brett- University Of Glasgow - Uk	Plant Biotechnology Progress and Prospects
10:00-10:30	Dr.Nezar Abu.Harfeel Philadelphia University	Augmentation of natural Killer Cells by Some Jordanian Wild Plants
10:30-11:00	Dr.Talal Al-Taher - Jordanian Pharmaceutical Manufacturing Company	Biotechnology and Pharmaceutical Applications
11:00-11:30	Coffee Break	
11:30-12:00	Lolita Qouta - Philadelphia University	Molecular Biology of intercellular adhesion
12:00-12:30	Dr.Nabil Nimer- Philadelphia University	Global Carbon Cycle and the Biological Pump
12:30-13:30	Dr.Christopher Brett- University Of Glasgow - Uk	Cell Wall synthesis and assembly
13:30-14:00	Dr.Amjad Khalil- Philadelphia University	Production Of Antimicrobial agents from Thermophilic Bacteria isolated from hot springs in Jordan
14:30-14:00	Dr. Raed Kanan Philadelphia University	The effect of Vitamin D receptor polymorphisms in perimenopausal Jordanian Women

Avenue: Administration Theatre, Philadelphia University
