

# ISIICT 2007

**Third International Symposium on Innovation in Information & Communication Technology**  
**09<sup>th</sup> - 10<sup>th</sup> May, 2007, Philadelphia University, Amman, Jordan**  
**<http://www.philadelphia.edu.jo/isiict2007>**

**Honorary chair**  
Marwan R. Kamal

**General Chair**  
M. Bettaz

**Organizing committee**  
Chair: S. Ghoul

Members:  
W. Al-Jamussi  
K. Al-Jenabi  
R. Alwan  
N. El-Emam  
Q. Hamarsheh  
K. Khoualdi  
M. Maouche  
I. Shehabat  
N. Yacob

**Secretary:**  
N. Abawi

## Important dates

**April 1, 2006:**  
1<sup>st</sup> call for papers

**Jun 1, 2006:**  
2<sup>nd</sup> call for papers

**October 11, 2006:**  
Deadline for submission of papers.

**December 13, 2006:**  
Notification of acceptance

**February 1, 2007:**  
Registration

**February 1, 2007:**  
Camera ready

## Topics

Suggested topics include, but are not limited to, the following:

e-Applications, Knowledge-based applications, Mobile computing & wireless technology, Security, Software engineering applications, Web & multimedia technologies,

## International Program Committee

Please visit the conference web site:  
<http://www.philadelphia.edu.jo/isiict2007>

## First Call for Papers

### The Conference

Information technology continues to increase opportunities for strategic advantages and to increase corporate efficiency. Some researchers and practitioners maintain that the greatest threat to this trend may be the shortage of qualified IT personnel. Others maintain that firms producing new IT applications overlook opportunities to retrain and reassign older workers skilled in legacy technologies. This issue is debated within a context where the IT environment in many businesses is changing from a "development paradigm" to a "buy and integrate" approach.

This conference is intended to serve as a forum for discussing the wide range of issues that are raised by today's Information and Communication Technologies, as well as their evolution and their paradigm shifts. Authors are invited to submit papers that discuss foundational, empirical or experimental aspects of information and communication technologies. Tutorials are solicited as well as panel proposals dealing with these topics. All submissions will be refereed by at least three members of the Program Committee.

Accepted papers will be published in the [Electronic Workshops in Computing Series \(eWiC: <http://ewic.bcs.org>, ISSN 1477-9358\)](http://ewic.bcs.org), which is an electronic Journal, published by [The British Computer Society \(BCS\)](http://www.bcs.org). Authors of accepted papers will have the opportunity to make revisions prior to submitting a final version. Authors will be expected to register for and attend the conference personally to present their papers.

### Submission of papers

Papers may report on completed research, research in progress, industrial case studies, or speculative research ideas. They must be original, unpublished elsewhere and include an abstract with the body. Industry case studies may report specific strategies being employed or under development or may address issues related to information & communication technology. All submissions must include a separate title page with each author's full name, affiliation, complete address, telephone, and, if available, fax number and e-mail address. Authors should submit their manuscripts in the conference web site according to the norms required by eWiC.

### The University and tourist information

Philadelphia University, winner of Al Hussein Fund Prize for Excellence in Information Technology, is a private accredited university situated at a beautiful site in the hills, 25 km outside Amman. It has 9 faculties: Information Technology, Science, Engineering, Pharmacy, Administrative and Financial Sciences, Law, Arts, Nursing, and Distant Learning. The faculty of Information Technology is composed of five departments (Software Engineering, Computer Science, Applied Computer Science, Computer Information Systems, and Management Information Systems). The University provides an educational environment that keeps up with evolution of the technologies.

### Registration fee

Please visit the conference web site: <http://www.philadelphia.edu.jo/isiict2007>.
