ISIICT 2018

Fifth International Symposium on Innovation in Information & Communication Technology
31th October-01st November, 2018, Philadelphia University, Amman, Jordan

http://www.philadelphia.edu.jo/isiict2018

Steering Committee
M. Bettaz
Philadelphia University, Jordan
S. Kumar Khatri
Amity Institute of Information Technology, India
Karim Djemame
University of Leeds, UK
Arafat Awajan
PSUT, Jordan
Bassam Hammo
The University of Jordan, Jordan
Gheith Abandah
The University of Jordan, Jordan
Program Chair
K. Djemame
University of Leeds, UK
Organizing Committee
Chair
M. Bettaz
Philadelphia University, Jordan
Co-Chair
Sunil Kumar Khatri,
Amity Institute of Information Technology, India
Secretary
D. Hamoudeh
Philadelphia University, Jordan

Important dates
September 14th, 2018
Deadline for submission of papers

September 28th, 2018
Notification of acceptance

October 5th, 2018
Camera Ready

October 1st– 31th, 2018
Registration

International Program Committee
Please visit the conference web site:

Call for Papers

Conference Themes
- Cloud-based Systems
- Embedded Systems and the IoT
- Big Data
- Software Technologies
- Security
- Performance Engineering
- Mobile and Wireless Networks
- Bio-Inspired Computing
- Bio-Medical Computing
- Web Computing
- Natural Language

The Conference
Information technology continues to increase opportunities for strategic advantages and to increase corporate efficiency. Some researchers and practitioners maintain that the greatest threat to this trend may be the shortage of qualified IT personnel. Others maintain that firms producing new IT applications overlook opportunities to retrain and reassign older workers skilled in legacy technologies. This issue is debated within a context where the IT environment in many businesses is changing from a "development paradigm" to a "buy and integrate" approach.

This conference is intended to serve as a forum for discussing the wide range of issues that are raised by today's Information and Communication Technologies, as well as their evolution and their paradigm shifts. Authors are invited to submit papers that discuss foundational, empirical or experimental aspects of information and communication technologies.

All submissions will be refereed by at least three members of the Program Committee.

All accepted papers will be published in the symposium proceedings, under an ISBN reference, and are expected to be included in IEEE Xplore and will be indexed by EI. Authors of selected papers will also be invited to prepare extended papers of their work for publication in the International Journal of Parallel, Emergent and Distributed Systems edited by Taylor & Francis: http://www.tandfonline.com/toc/gpaa20/current.

Authors will be expected to register for and attend the conference personally to present their papers.

Submission of papers
Papers may report on completed research, research in progress, industrial case studies, or speculative research ideas. They must be original, unpublished elsewhere and include an abstract with the body. Industry case studies may report specific strategies being employed or under development or may address issues related to information & communication technology. All submissions must include a separate title page with each author's full name, affiliation, complete address, telephone, and, if available, fax number and e-mail address.

Special Sessions
- Computational Intelligence to Autonomic Sustainable Computing through Data Sciences (CIASCD).
- Recent Advancements in Computing, Big Data (RAICBD).

The University and tourist information
Philadelphia University, winner of Al Hussein Fund Prize for Excellence in Information Technology, is a private accredited university situated at a beautiful site in the hills, 25 km outside Amman. It has 8 faculties: Information Technology, Science, Engineering, Pharmacy, Administrative and Financial Sciences, Law, Arts, Nursing. The faculty of Information Technology is composed of four departments (Software Engineering, Computer Science, Management Information Systems, and Web Engineering). The University provides an educational environment that keeps up with evolution of the technologies.
