Module Description:

The administrative justice course requires a knowledge of a group of basic principles, most importantly, legitimacy, the forms of judicial monitoring of the activities of administrative authority, and also a study of the most prominent restrictions on the principle of legitimacy. Perhaps, the annulment lawsuit is considered one of the most important subjects of administrative justice, given that it is a legal mechanism used for purposes of carrying out monitoring of the activities of the administrative authority; the extension of its concept, conditions and the reasons for effecting it are studied. The competences of the higher court of justice are addressed, given that it is the Jordanian version of a two-track justice, whether insofar as the study deals with the court competences governed by law or a discussion of the judicial decisions issued by it.

Module Aims : The aim of this module is to :

1. Provide students with the basic as well as advanced knowledge in the Jordanian administrative judiciary and its historical development
2. develop students analytic and practical cognitive skills to deal with issues related to administrative judiciary as well as develop their abilities to learn and apply theoretical knowledge in this field to actual problems
3. develop students ability to write different judiciary papers related to administrative judiciary, and to further develop all the oral and written skills
4. develop students skills in communicating with others and to work with a team spirit, in addition to benefit from modern techniques
5. to develop positive as well as effective influence in the various legal activities, in addition to in-advance preparation to perform tasks, manage time and to rapidly respond to the latest development

Attendance Policy (See Article 8 of the University regulation Guideline)

Attendance will be taken by the instructor at the beginning of each class. **On-time** and **regular** attendance is necessary for you to successfully achieve a good mark. Habitual tardiness is considered to be rude and disruptive behavior. An absence is recorded for any reason the student fails to attend class. However, an accumulation of 15% absentia of the total module's hours result in that student will be withdrawn from the module by the module's instructor.

Module policy requests

The instructor is the last person to enter the lecture room and the first to leave, therefore, students will not be permitted to attend the class once the lecture has started.

Cellular phones or beepers must be turned off or put on silent during the lecture. If for any reason a student receives a call in the lecture, he/she should leave the classroom out of courtesy for fellow students. However, students should keep in mind that he/she will not be allowed into the classroom

Expected Workload

On average, the student is expected to spend at least (3) hours per week of self-studying for this module. The student will be expected to spend 1 hour for reading the lecture's topic before the lecture's due time and half an hour for revision of the lecture.

From time to time, I will give you a quiz which will be counted towards the total average of the module, and the aim of these quizzes is to see how prepared you are for a given lecture.

My role is to help you to understand the module's material, so please don't hesitate to ask if you are unclear about anything.
