

Supported Project

Research	Faculty member
تصميم ومحاكاة وبناء محطة حرارية مختبرية لتحلية مياه البحر	Prof. Assim Hamed AL-Daraje
Heat Transfer and Flow Performance of Gas Turbine Components Cooling System	Prof. Assim Hamed AL-Daraje
Numerical analysis study of a fully developed flow and heat transfer in an irregular annuli	Prof. Munzer Ebaid
Design,build and test a formula student car	Prof. Munzer Ebaid
Cooling of photovoltaic (PV)Panels Using Nanofluids	Prof. Munzer Ebaid
Design ,Manufacture and Test Tracked Ground Vehicle for Rugged Terrain Conditions (Deep snow , mud , sand and rocks)	Prof. Munzer Ebaid
Design,build and test a Quad Bike for Desert Conditions	Prof. Munzer Ebaid
Mobile Pv generator for remote locations	Prof. Munzer Ebaid
Turbine ,Designing and Wind Building	Dr. Hasan Al Dabbas
Solar car design for race in Cyprus	Dr. Shatha Ammourah
