BIO:

Hubert Baumeister is associate professor at the Technical University of Denmark (DTU) since 2006 and was head of the Software Engineering section from 2008 to 2012. He obtained his PhD from the Saarland University and the Max Planck Institute of Computer Science in Saarbrücken in 1999. He has been an active collaborator and an executive project manager of several EU projects. He was academic chair of XP2004 and program chair of XP2005 and XP2017. He is an expert in software engineering, in particular, extreme programming and object-oriented technology. His research interests include service-orientation, aspect-oriented modeling, formal methods, and the semantics and extensions of UML.
